Applied Behavior Analysis (ABA) is a scientific approach to understanding behavior and how it is affected by the environment. This method is used to improve or change specific behaviors, such as social skills, communication, reading, and academics as well as adaptive learning skills, like fine motor dexterity, hygiene, punctuality, and domestic capabilities.

Level 1: Fundamentals of ABA Therapy (FIRST Month)

- Introduction to ABA and its applications.
- Behavior assessment and intervention strategies.
- Data collection and analysis.

Level 2: Advancement & Practical Approach to ABA Therapy (2nd & 3rd Months)

- Developing and implementing behavior plans.
- Advanced behavior intervention techniques.
- Ethical considerations in ABA Therapy.
- Practical training under supervision.

This program is divided into modules that cater to every important key point regarding ABA Therapy. It is presented in an unbiased manner, but within clinical context limits.

You are allowed to practice under supervision of our BCAB Licensed Practitioner or may start own therapy unit under supervision.

Join our ABA Therapy Training Program today and start your journey towards a rewarding career in behavioral therapy. For more information, contact us.
